Summary

"**intermediate** Web Developer with over 2 years of hands-on experience developing responsive websites and web applications. Proficient in front-end development using HTML5, CSS3, JavaScript (ES6), and frameworks like React and Vue.js. Skilled in back-end development with Node.js and Express, integrating APIs, and designing databases with MySQL and MongoDB.

Experience

freelance - *remote*

from home | 07/2023 - In progress

- Developed and maintained responsive websites and web applications using HTML5, CSS3, and JavaScript (ES6).
- Utilized front-end frameworks such as React and Angular to build dynamic user interfaces and improve overall user experience.
- Implemented back-end solutions using Node.js and Express, integrating with RESTful APIs to support front-end functionality.
- Designed and optimized databases using MySQL and MongoDB, ensuring efficient data storage and retrieval.
- Collaborated closely with design teams and stakeholders to translate requirements into technical solutions.
- Conducted code reviews and implemented best practices to maintain high code quality and scalability.
- Actively participated in agile development processes, contributing to sprint planning, daily stand-ups, and retrospectives.
